

The first part of the book is devoted to a description of the  
 various species of plants which are found in the  
 country. The author has been very particular in  
 his observations, and has given a very full  
 account of the most remarkable ones. He has  
 also mentioned the several uses to which they  
 are put, and the manner in which they are  
 cultivated. The second part of the book  
 contains a description of the animals which  
 are found in the country. The author has  
 been very particular in his observations, and  
 has given a very full account of the most  
 remarkable ones. He has also mentioned the  
 several uses to which they are put, and the  
 manner in which they are cultivated. The  
 third part of the book contains a description  
 of the minerals which are found in the  
 country. The author has been very particular  
 in his observations, and has given a very  
 full account of the most remarkable ones.
