

The book cover is made of dark brown leather and features a highly decorative embossed design. The design consists of a central rectangular panel containing the title, surrounded by a complex, symmetrical pattern of interlocking circles and floral motifs. The pattern is framed by a double-line border. The title is printed in a gold-colored, ornate Gothic script. The word "Reisen" is at the top, followed by "bei" in a smaller font, and "Sonnenschein und Regen." at the bottom.
